Re: Docket No. 98N-1265

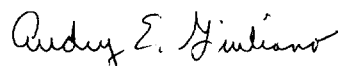

Dear Sir or Madam:

For many years I have suffered the adverse side effects of prescription drugs taken for sinus infections and allergy relief. For that and other reasons, I sought alternatives to prescription drugs and found great relief with homeopathic remedies.

I understand you have drafted a memorandum of understanding (MOU) to provide legislative guidance to State Agencies. In its present form, the MOU, as well as the Compounding Section 503A of the Modernization Act, severely restricts the rights of physicians and patients to obtain healthcare products from the provider of their choice, and infringes on the rights of compounding pharmacists to serve the public's medical needs.

Please consider that there are many thousands of people like myself who do not respond well to many prescription drugs and must find other means to maintain their good health. Please redraft your MOU in a way that will allow for us to treat ourselves with alternatives to prescription drugs.

Sincerely,

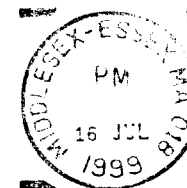

Audrey E. Giuliano
